

Testimonial for Claybridge Builders

We have been very pleased with our new addition to our home. On the Exterior, the addition blends seamlessly with the existing structure of our Home. On the interior, the floor plan was well designed both functionally and aesthetically. Your skilled trades people did an excellent job and were very pleasant to work with. The project was completed in less time than anticipated which was greatly appreciated. Overall, our expectations were exceeded. We would and have recommended you to our friends.

Sincerely,

Dale & Denise
